Esquimalt Graving Dock.
THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock, at the Naval Station, Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, with Section 5 in the following words:—
"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work, at the rate of five per cent. per annum, on such sums, not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."
The Dock to be of masonry, and of not less than the following dimensions:—
Length on floor 370 feet,
Do. over all 400 feet,
Width between copings 90 feet,
Do. on floor..... 45 feet,
Do. of entrance..... 63 feet,
to afford a depth of water on the sill of not less than 30½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.
Further particulars as to site, borings, &c., may be obtained from T. A. BERNLEY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.
Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions showing exact dimensions, materials, and mode of construction of proposed Dock.
Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon of the 15th day of November, 1872.
Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis of such supplemental guarantee by the Provincial Government, or upon such other financial inducements, as they may suggest.
The Government do not bind themselves to accept the lowest or any tender.
Each tender must be accompanied by a Bond for the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, her heirs and successors, conditioned upon the due fulfilment of the tender which is accompanied, provided it be accepted within three months from the said 15th November.

Dual Representation.

The propriety of the principle of one individual simultaneously representing one constituency in the local Legislature and another constituency in the House of Commons, is a question that has been very freely ventilated in all the Eastern Provinces of the Dominion, and by some has been adopted while by others it has been rejected, By none have the same objections been raised to the principle that have been brought against it in this Province. Those who have rejected it on the other side of the Mountains, did so on purely political grounds, for the alleged reason that the dual system had a tendency to give the Federal Government an undue influence in those local Legislatures recognising the dual principle. It is not our intention to discuss the soundness or otherwise of the arguments used by our tramontaine cousins in reference to this subject, inasmuch as the people of this Province are in no way interested in the decisions they have arrived at concerning it. We would, however, observe that however cogent such objections might be as regards the Eastern Provinces, they could not very well be made to apply to British Columbia, for the double reason that the entire representation from this Province will go to the Commons pledged to support the policy of the Macdonald Administration, and that on the ground of the distance of this Province from the seat of the central Government, and the consequent difficulty of holding communication therewith, there is not the same danger of interference in our local affairs on the part of the Dominion Administration that there would be in the case of Ontario and Quebec. The objection to the dual system in this Province is, that in the event of the local Legislature and the House of Commons meeting simultaneously, it is impossible that those occupying dual positions can discharge the duties of both, and that one or the other must necessarily be neglected. We admit that there is a degree of force in this view of the subject, and if it were true that there is no possibility of overcoming the danger of the two Legislatures sitting at the same time and thus coming in conflict with each other, dual representation, so far as this Province is concerned, would practically be out of the question. Our local contemporary has been for some time past devoting itself to the task of impressing upon the public mind that dual representation is a great mistake so far as this Province is concerned, for the reason, as it alleges, that both Legislatures are most likely to be convened about the same time, and that there is no way by which the danger of both Houses coming in conflict with each other can be obviated. Were we of that opinion, we would be as strongly opposed to dual representation as any one; but we believe that it is a difficulty that can be very easily overcome, and no doubt will be remedied, when the local Legislature holds its next session. It is rarely indeed that the Dominion Parliament meets for dispatch of business before the month of February, and were the local Legislature by statute to fix the period of its annual meetings on or about the first of November, which to the members of that House would be as convenient as any time that could be chosen, there would be no danger of any collision of interests, and the members of the local House having seats in the Commons would have ample time to discharge their duties in the one before proceeding to the other. The advantage in the dual system as regards this Province is, that it widens the field from which the electors may choose their representatives, which at best is but very limited, and ensures the services of men of experience and ability in the local as well as in the central Legislature. It is for this reason we favor the dual system. We believe under present circumstances it will be more advantageous to this country than will that system which would limit the choice of the electors to representatives for the local House to such persons as have not seats in the House of Commons. There need be no clashing of interests between the Legislatures, but if it be found impossible to work the system harmoniously, and so as to promote the best interests of the Province, we shall be as ready and willing to see it done away with as the rest of our neighbors.

Dual Representation.

We clip the following from a very ably written and sensible article, which appears in the Cariboo *Sentinel*, of the 17th inst. We regret not having room for the whole of it. Extract: "It is argued by the opponents of the "dual" system that it is impossible for a man, even if he is a subtile and versatile politician, to serve two masters and it is broadly asserted that by the exclusion of that system a large number of people are educated in the school of political science and government. This is, no doubt to a certain extent true, but at the same time the argument is full of fallacy, for it is just as easy to serve two masters as it is to serve one, provided the service is not required at one and the same time; and on this simple point hinges a great part of the question at issue. If the Local Legislature met at such a time as not in any way to conflict with the meeting of the House of Commons, there is no paramount reason why any gentleman such as Mr. DeCosmos, for instance, who has leisure time on his hands and whose profession is politics, or whose ambition may be political distinction should be excluded from representing his constituency in both Houses, provided the district choose to confer upon him that distinction. In fact many constituencies would rather put up with the somewhat problematical evils supposed to arise from the system of dual representation than deprive themselves even partially of the services of a member who may in some respects be particularly and peculiarly the representative of their views.

We wonder what induces David Green the clothier of Government street to advertise, as everyone is aware that he keeps the best fashionable made clothing store north of San Francisco.

To the Electors of the Yale, Lytton and Kootenay District.

GENTLEMEN,—Having a sincere desire to see these districts, this Province, and the whole Dominion prosper, I wish to give a helping hand to those patriots who labor for the moral and material wellbeing of our people.

I therefore offer myself as a candidate to represent you in the Ottawa House of Commons.

If I am elected I will strive to uphold the honor, peace and safety of the people, encourage our prosperity, and develop our resources.

I will vigorously uphold all measures tending to our good; and with like vigor, oppose all derogatory to the good of our country and people.

I promise to be ever ready to represent the petitions of my constituents, when right and reasonable, and intend when practicable, consulting them upon the wants &c. of these districts.

It is for you gentlemen to say whether I shall be your representative.

If you have made, or likely to make a better choice, I will not oppose your man, but will assist in electing him.

Your servant
ALEX. L. FORTUNE.

To the Electors of the District of Victoria (including Victoria City, Victoria District, Esquimalt and Metchosin.)

GENTLEMEN:—Having received a most numerously signed requisition asking me to allow myself to be put in nomination at the election for members of the House of Commons, I cordially accede to the request and now offer myself as a candidate for re-election.

When, ten months since, I was elected a representative to Ottawa I promised, amongst other subjects, to urge upon the Government the necessity of dredging Victoria Harbor, of making arrangements for the commencement of the Dry Dock at Esquimalt, of building Lighthouses, and of making Esquimalt and Victoria the Terminus of the Canadian Pacific Railroad. It is, therefore, gratifying to me to be able to state, as it will be satisfactory for you to learn, that in these matters my efforts have proved entirely successful; and further, that several Federal Laws unsuited to British Columbia were, through my representations, not applied to this Province.

Although thoroughly convinced that the Dominion Government will undoubtedly faithfully fulfil their part of the Terms of Confederation to the fullest extent and otherwise aid, by all legitimate means, the endeavors of the inhabitants of British Columbia to promote the advancement and wellbeing of this portion of the Dominion, still, if elected, I shall deem it my duty to jealously guard these conditions and to urge their rapid and complete fulfillment, and as occasion occurs solicit further assistance from the Ministry.

It is essential that British Columbia should be brought into direct communication with the seat of Government at Ottawa. I shall therefore, urge upon the Ministry the advisability of connecting the present telegraph system of British Columbia with that of the Eastern Provinces.

Pending the more rapid means of communication with the General Government, it is at least expedient that the Lieut.-Governor this Province should be endowed with more extensive powers in criminal matters, to be enabled to commute sentences and to delay, if advisable, the execution of criminals.

The prosperity of British Columbia being in no small degree dependent upon an increase of population, I shall use my best efforts to induce the Ministry of Canada to assist the Local Government in carrying out any well devised scheme of immigration.

The immediate organization of the Indian Department is essentially necessary to the well-being of all.

Circumstances and conditions now unforseen may arise in this Province; but since I shall reside among you they will become known to me, and questions alike of interest to British Columbia and the Dominion will doubtless come up in Parliament. Each and all of these shall command my careful study and deliberate judgment; but, speaking generally, I shall, as I have done hitherto, give a liberal and firm support to the Macdonald-Cartier Administration, the faithful friends of British Columbia, being convinced that the welfare of the Dominion and the material interests of this Province will be thereby best promoted.

Thanking you again for your expression of confidence and goodwill, I hope, if elected and profiting by the experience of the past, to be in a position to render you greater services and merit a continuance of your confidence, support and approbation.

I have the honor to be, Gentlemen,
Your obedient servant,
HENRY NATHAN, JR.

POLITICAL.

We are authorised to state that MR. DECOSMOS will be a candidate for the House of Commons at the next election.

Mr Nathan's Meeting.

Last evening Mr. Nathan addressed the electors of Victoria at the Alhambra Hall. The Mayor again occupied the chair, and Mr. R. E. Jackson acted as Secretary. The hall was well filled and several gentlemen occupied seats on the platform.

Mr Nathan commenced by thanking the audience, for he thought most of them must be weary of political meeting; he said he would not trespass on their time, but would briefly give an account of his stewardship as their representative while in Ottawa. He arrived in Ottawa on the 20th of January, on that day there had been a meeting of the Dominion Board of Trade; the same evening he met several of the members of that Board at a dinner given by one of the Ministry; they expressed to him their regret that British Columbia had not had a member to represent her at the Board, and hoped that she would not allow another year to pass without having one present. He (the speaker) thought it very necessary that we should have a member there. The next two or three days he passed in making the acquaintance of the Ministry, and the leading Government officials, informing himself on things generally. While in conversation with one of the Ministers, he was asked the question, that proposition of Treaty at Washington was passed, whether this Province would share in the advantages thereof, the same as the Eastern portion of the Dominion? the answer he received was that we should. In a few days he made application at the proper quarter for the following public works; the dredging of Victoria Harbor, the building of a suitable post office, and increased postal facilities; the erection of a lighthouse on Cape Beale, and various other matters, which he was happy to be able to inform the audience had been granted in the fullest extent. He had also urged that the Canadian Fishery laws should not apply to this Province, as not being applicable; if they had been enforced here, most probably an Indian war would have ensued, as the fishing laws as regards salmon, in the Dominion, are more stringent, and the fish are only allowed to be killed at certain seasons of the year. He had also urged on the Ministry the desirability of having a man-of-war permanently placed on this station. In connection with the railway, he had always impressed on the Government that Esquimalt was the most suitable spot for the terminus; but he would add that it was not the representations alone which led to the selection of Esquimalt, but her own natural facilities. As to the terms of Confederation, he (the speaker) thought that Canada receives a great benefit in obtaining a seaboard on the Pacific; he considered the terms were fair, and settled, and that it was a just and equitable bargain between Canada and this colony. He was of the opinion that as the revenue of Canada increased, that she would be willing to assist us further as occasion might demand. When at Montreal, he had joined one of the parties who had offered to build the railway, Sir Hugh Allan, and of which company he was one of the directors. He had also seized many opportunities whilst in that city of speaking of the resources, and advantages of our Province to immigrants. Touching the subject of immigration Mr Nathan said that he had applied for a certain reimbursement for land taxes, so that certain sections might be thrown open for sale, instead of only for pre-emption as heretofore, the answer to which he expected would be favorable. He had also represented to Sir Hugh Allan the necessity of having a better class of steamships between this port and San Francisco, and Sir Hugh had replied that very likely at some future time, some vessels of his fleet would ply on this coast. In connection with the Railway survey, Mr. Nathan said that perceiving that the whole of the survey was being directed towards the valley of the Fraser, he had made application that the coast might receive some share of it, and as all know there is at present three parties engaged in surveying the coast. Mr. Nathan then gave a slight outline as to how business is conducted in the House of Commons.—Each party in the House had its own speaker, and if a member wished to have a measure passed, he had to take it to a head and see if it would receive support which it it did, it passed without any further trouble. Very few bills, he said, of interest to British Columbia, had passed through the House last session. He also applied to the Dominion Government that the telegraph system of the Dominion might be joined with that of British Columbia. The jail system of this Province was alluded to, and Mr. Nathan said that he should submit to the Government, that the power of pardoning criminals should be vested in the Lieut. Governor. In reference to the public works for which the money had been voted last session, Mr. Nathan said that he had had an interview with the Minister of Public Works the day before he left Ottawa, and asked that the said appropriations should be expended without delay, owing to the present depression in this Province, $1 spent this year would do more good than $1 50 at a future time. Mr. Langevin had promised compliance. Mr. Nathan further stated that he was in a position to state that negotiations are now going on which would insure the commencement of the Graving Dock next year. He then thanked the electors for their support, and promised which had been extended him since his return to the Province, and resumed his seat amid applause.

Dr. Helmcken, in answer to a loud call, then came forward; he thanked the audience for their welcome and said it was not long since he had introduced Mr. Nathan to their notice. He felt proud that Mr. Nathan had received such promises of support; he knew he deserved them; he needed no recommendation from him. From this time Mr. Nathan was a rising man, both here and in the Dominion. After enunciating most warmly Mr. Nathan's conduct whilst in Canada, the Doctor went on to say that it was his opinion that Canada would assist this Province in every way possible, but that it must be self-reliant, and look to itself to develop the resources of the country. If we supposed that British Columbia is to be made a country by Canada without our paying for it, we were very much mistaken. We have to make our own country and we have to pay for it. What we now want in this country in his opinion, was high taxation and plenty of public works. The Government has abolished some of the taxes, he thought unwisely; the sooner they put on some more taxes the better, and he was of opinion that they would have to do so before the end of the year. What difference would it make to us whether we paid $5 more or less taxes per year? If there be one thing more than another which we want in this country, it is the introduction of manufactories and other industries. The class of persons wanted as immigrants are agriculturists, for whom there is plenty of land. We must not depend upon outside countries for the necessaries of life. When the work of building the railway commences, the workmen employed should be supplied by our own farmers, and not by foreign countries, otherwise the building of the railway will benefit foreign countries more than ourselves. Something had been said by Mr. Nathan about the steamer from San Francisco; he hoped that when Mr. Nathan returned to Canada, that he would urge on the Ministry to have a daily line of communication between here and Puget Sound, which would be of great benefit to this place; and when the railway from Portland to Olympia shall have been completed, we can have a daily mail from Canada and the United States. The actual benefits, the Doctor continued, that we have derived up to the present time by Confederation, are very small, but Confederation had not yet taken place. Confederation meant railway, without which Confederation means nothing, and we shall not receive the full benefits of Confederation until this railway is built. He did not intend to ask the meeting to endorse any resolution of confidence, as he knew all had confidence in Mr. Nathan; he should not seek to influence the electors any more on his behalf. He felt it was no use, now that every one had promised him, and if he said any more, it might do him an injury. (Laughter and applause.)

Mr Harrison then moved a vote of thanks to the Chairman, and the meeting broke up at 9 p. m., after giving three cheers for Mr. Nathan and three for Doctor Helmcken.

Whiskey Selling to Indians.

THE POLICE ON THE ALERT.

John McMunn was brought before M. Pemberton yesterday morning in Court, charged with giving an Indian on Saturday last in Johnson street, a bottle of spirits. Prisoner said he was a stranger, didn't know the law, was intoxicated at the time; the Indian was a friend of his; was never in Court before; had been working at the Victoria brewery, and would leave the place if the Magistrate would only give him a chance.

The Magistrate replied, he was inclined to fine him, when the prisoner said he had only a two and a half about him. Fined $50 or 3 months in jail.

Moses Garneau, a young half-breed lad, was charged with whiskey selling also. The police saw him with a box at the foot of Johnson street on Saturday last; he went off in a canoe; they followed and overhauled him, taking two cases of liquor produced in Court. The prisoner pleaded guilty. He had not been before convicted of the offence.

The police said he did nothing but sell liquor; he was in once for stealing; and was in jail in connection with the robbery of Burns & Edwards.

The Magistrate was sorry he could not inflict hard labor on the prisoner, and sentenced him to pay $100 or six months in prison.

Frank Pressy, a foreigner, was charged with a similar offence. The police on Friday night last on Johnson street, saw an Indian get a bottle of liquor through a hole in the back of the lager beer saloon, Johnson street. The Indian told them, that Pressy was the man who sold it him, and they made the arrest, and he didn't deny his guilt.

Tom, a Cowichan Indian, who got the bottle, said he bought it for a *sitcum* dollar, got it through the hole as above mentioned; officer Black took the bottle.

The prisoner said there were several men lying around at the time, and it was'nt he who sold the bottle.

Officer Black gave testimony which conflicted somewhat with officer Rappitt's, and the Indian's, and the Magistrate said he was compelled to dismiss the case, which he did, admonishing the police to be more care s with their testimony.

Washington Territory.

The Columbia River and Puget Sound Railway is expected to reach Hudgden's by the 1st of October; by the 1st of January it is contemplated by the Division Engineer to have the road gravelled through to the end of the track, 65 miles north of Kalama. It has been decided not to span Hood's Canal with a suspended wire; a cable will be laid. A telegram has been received that Cherokee Smith (well known in Victoria) has been fatally shot at Eugene, Oregon. Capt. J F Hines has been appointed a special inspector of customs, to be stationed at Victoria. Vivian was to play on Saturday evening last at Tumwater. We learn of the marriage of Dr. Thomas T. Minor, of Port Townsend, to Miss Sarah E Montgomery, of Bedford, Pa. They were married in Trinity church, in Portland, on Tuesday evening, August 20th, by Bishop Morris, assisted by Dr. Nevius. Mr. Garfield is expected to reach the Sound from Washington within a few days. The *Intelligencer* of yesterday says, the report of Shipley having been at Freeport on Tuesday last, as well as at divers other places, turns out to be very much of a *canard*. The Olympia *Standard* writes: Travel on the Sound is very dull at present. Fewer tourists have visited the country this summer than any preceding one for several years. The Seattle new Baptist church was dedicated for worship on Sunday last. Milnor Roberts, Chief Engineer N. P. R. R., a few days since, telegraphed to Thos. B. Morris, Engineer Pacific Division, that he intended to leave New York for Kalama on Monday, the 26th of August, accompanied by a party, and that he expected to reach there about the 7th of September next.

From the Sound.—The steamer North Pacific arrived at two o'clock yesterday from Olympia and way ports, with 51 passengers, a few head of cattle, and a small amount of miscellaneous freight. She leaves at noon to-day on her return trip. The following is the list of her passengers: Collector Drew, Rev. W. B. Bishop and wife, Mr. Corbit and wife, Capt. Crosby, Mrs. Walker and child, Mrs. Hinds, Mrs. Winslow, Mrs. Libby, Mrs. Hastings, Miss Bartlett, Mr. Hyde and wife, J. W. James, Geo. Harris, Dodge, Coney, Mingle, Miss Hanley, Steward, Martin, Wild, McLane, Robertson, Eakins, Hall, Ford, McCrea, Captain Kirk ship General Windham, Kieferdof, Pope.

The Steamer Olympia.—Advices from San Francisco state that the steamer Olympia, formerly running in these waters, has been fitted up for the Australian trade, and she sailed from San Francisco on the 15th, but was compelled to return. It is stated that the steamer, which has been lying idle in port for the last two years, has peculiarly constructed steam condensers, and the engineers, who were freshly put on board, did not understand them, and finding they could not make the machinery work to suit them, returned. Damage to her steam pipes having been repaired, next day, the 19th, she started for sea again, with the Australian passengers and mails.

Circus.—The great Crystal Palace Circus, which is at present performing on the Sound, will arrive here on Monday next, and will show for the remainder of the week. From the notices we see in the Portland papers, this troupe will vie with any which has visited our city.

The Fraser Buoys.—The Douglas will only go as far as Nanaimo this week; will return on Thursday; sail for Sooke on Friday, and go up to Fraser mouth early next week, to replace the sandhead buoys which are adrift at the mouth of the river.

The Robbery of Mr. Turner's Store—London House.

AN INFORMER AT LAST TELLS THE STORY OF THE TRANSACTION.

This tedious case in which two Chinamen, Ah Yen and Ah Toy are concerned, was brought up in the Police Court yesterday, again. Ah Toe, who has turned Queen's evidence against the two above, was placed in the witness box, and Kwong Lee, a Cormorant street merchant, interpreted the evidence. The witness appears to be an intelligent, smart fellow, and talks very plausibly of the whole transaction. He said: Ah Toy, one of the prisoners, told me that he stole the goods from Mr. Turner's store; the night was dark and stormy, and it was a little before Christmas. Ah Fuk and Ah Yen were with Ah Toy at the robbery. Ah Toy asked me to sell the goods on commission; this was after the robbery, three or four days; the goods were of all kinds. In consequence of what Ah Fuk said, I went to his house and saw some goods; they were fine and coarse cloths, and carpeting; the house was on Cormorant street, between Government and Douglas. Ah Toy came to my house and said he had fine and coarse cloths and some overcoats; this was 18 or 19 days after the robbery at Turner's; the overcoats were ladies', and were only a few; they were black and dark color. Ah Toy showed me about seven yards of fine cloth, also cotton cloth which he wished me to sell, but he didn't say anything about a commission.

The evidence of witness taken in Court on 22d and interpreted by another Chinaman was then read over. It was to this effect: Ah Yen said he would give me $120 not to tell the police of the robbery; he said this in jail with me all the time; Ah Yen worked in the bowling alley during the night time and was home in the day. The night of the robbery I was in Chinatown, Cormorant street, saw Ah Toy, Ah Yen and Ah Fuk bringing home a parcel; they took them to Ah Fuk's house. The bag contained three kinds of cloth; thin stuff wrapped in a paper bag. [This last statement that witness saw the prisoners the night of the robbery was not corroborated by yesterday's interpreter Rep.] I saw them in Ah Fuk's house after the robbery; Ah Toy and Ah Fuk told me the robbery was committed by them; when the police were making enquiries, Ah Yen got frightened, and he took his part of the goods to James Bay; a Chinaman told me this last; when I went to Esquimalt with the police who proceeded to arrest the prisoners, Ah Yen stated it was none of my business to inform the police; I didn't want the $120 as I wished to tell the truth in the Court. I had promised Ah Yen I would not be a witness against him; after Ah Yen was in jail two or three days, he told me he had stolen the goods from Turner's; Ah Yen said he had no money, but that he would give me an order on Ty Chung Lung for the amount, if I would not tell on him.

The prisoners, after the evidence was read over to them, were sent for trial to the Assizes. The informer, Ah Toe, was also sent to jail until the Assizes.

Much difficulty was experienced by the Magistrate in procuring proper and good interpreters, and it accounts for the fact that the case seemed to occupy so long a time in its trial.

Esquimalt Public School was re-opened yesterday, when the names of forty pupils were entered; it was visited at closing by the Rev. F. B. Gribbell (a School Trustee), who will again visit the school on Wednesday, and deliver an address referring to the resumption of studies. During the recess, the School Trustees carried out some very necessary repairs, alterations and additions to the school house, which have met with the entire approval of the Superintendent of Education. The school, as now constituted, will compare favorably with any of the numerous public schools which have recently been so successfully inaugurated by the Board of Education in this Province.

Ireland.—The *Colonist* has a most remarkable article on "the State of Ireland," a perusal of which would lead one to belive that every Irishman went about with a bludgeon under his coat tails, wherewith to crack the heads of all the other Irishmen he met. Because a few rowdies kick up a shindy—out of which the telegraph reporters make as much as possible—five or six millions of people are set down as "rioters," and educated, intelligent Irishmen" are lectured on the folly of "breaking each other's heads." Our contemporary ought to be ashamed of writing such nonsense. Are there never any riots in other countries. N. W. *Herald*.

Progress.—Amongst the marked attainments of science and mechanism in this nineteenth century, is the improvement on ocean going steamers which may now, without straining a smile, be said to cleave the waters "like things of life and light. We have only to call the attention of our readers to the "Prince Alfred now on her seventh day hence from San Francisco, to make these questions the corrections of the foregoing. She doubtless is making some progress, but 'tis slow—very slow. Patience Readers! Sometime.—Com.

The Steamer.—As some alarm and apprehension is felt at the non-arrival of the Prince Alfred, now out six and a half days, we think it well to inform those of our readers who may have friends on board, that our mail steamer, although undoubtedly slow, is sure. We doubt not that before the end of the week we shall have the pleasure of publishing a card from the passengers congratulating themselves upon their safe arrival.

☞ Exception having been taken to some lines which appeared in this journal of Saturday last, we have only to repeat what we have often stated, that we are not responsible for the sentiments contained in contributions. While our columns are open to all, we do not necessarily endorse the utterances of everything which may appear in the way of communications.

For Bute Inlet.—The Maude has been chartered to take the place of the Douglas to carry the mails to Comox, and will proceed on to Bute Inlet with supplies for the railway parties. She will leave this evening on her return from Nanaimo.

Returned.—Among the passengers who arrived in the North Pacific yesterday was Capt. Kirk of the ship General Windham, who came across to visit his old colonial friends before sailing for Peru from Port Gamble, where his ship is now loading.

Nominations.—The nomination of candidates for the Victoria District, for election to Ottawa, will be held to-day in front of the police barracks, at noon. For the Vancouver District, to-morrow, at Nanaimo.

Desertion.—Several more men of H. M. S Scout have deserted since her return from the North, making a total of twenty-seven desertions since the vessel arrived in port.

To Sail.—From Portland, the California is advertised to sail for Olympia, on Tuesday, the 2d of September; and the Geo. S. Wright, for Sitka on the day previous.

The St. Louis College will re-open on Monday next.

The Police Make a Descent upon Supposed Murderers.

From information received by the police yesterday, it was learned that two Indians came to town from McNeil's Bay, where they left a canoe and three Chinamen whom they had fetched down from the Skeena, 18 days on the way. They got short of provisions, and the Chinamen dispatched the Indians to town to procure the necessaries to enable them to get across to the other side of the Straits. The police went out in the afternoon to where the concealed men were sitting under a bush, and they jumped upon them before the accused were able to make a move; they arrested two, the other not having been then seen. They were brought to town and lodged in jail yesterday afternoon, on suspicion of being concerned in the murder of a Chinaman on William Creek in January last. One Celestial is already awaiting trial on the creek. The three above made their escape, and were supposed to have gone to Omineca; thence to the Skeena mouth, where they took the canoe in which they came down yesterday. It is presumed information will be at once transmitted to Cariboo, in anticipation of the trial which is to take place before Judge Begbie. A policeman was left to watch the other in order to bring him in also. What with the convictions elsewhere reported in this issue of the Standard, and this clever arrest, we must congratulate our new Superintendent and the police force generally, with being up to their duty, and with having turned over a new leaf.

Later—Superintendent Bowden succeeded in arresting the third man last evening, in an Indian shanty on Humboldt street, and lodged him in jail.

The Weekly issue of this journal, the most superior paper north of Portland, is issued every Tuesday morning.

For the Mainland.—The Enterprise will leave for New Westminster at 10 o'clock this morning.

For Burrard Inlet.—The steamer Fly left for Burrard Inlet yesterday morning.

Light Wanted.

Editor Standard:—You and your "Doric" contemporary agree remarkably on one point. You are great admirers of the Dominion Cabinet! Nay, you agree on two points; you hate the Opposition. Since the world began there never were such heaven born ministers. As for John A his name will be handed down to all posterity, and far further as a statesman. And as for Blake or Mackenzie they are sure to have a grand reception by the father of lies some of these days. Now what some of us cannot understand is, how it comes that you and your contemporary also agree in pointing out so frequently and so justly that some of the most important interests of this Province are shamefully neglected by the Ottawa Cabinet. I need not particularize. In Friday's issue you, perhaps unconsciously, "let the cat out of the bag," by saying, "We have reason to believe that the delay in making this and other Federal appointments for this Province arises purely from political considerations." In plain English, our interests are a secondary consideration—place and power are the first! Why, that is the grand charge brought against the Cabinet by the clear Grits. What is the difference in your saying it? It is, however, the honest truth. Any advantages we get, or any other Province will get from Sir John and Sir George will be "purely from political considerations." Our property, our liberty, our lives all thrown into the scale will not weigh one feather against the question of the success and security of "my Ministry." Let us ask, what has been done for us by the Dominion Cabinet? The Pacific Railway? You have published the declaration of Malcolm Cameron that the survey is a mere electioneering dodge. Oh! but we have a Post Office official in our midst. We have, indeed, and what is he doing? Sum it all up and the chief part of his arduous labors will be seen to consist in giving out three or four contracts in a *private understood way*, which not many years ago would have called forth from you and your contemporary indignant remonstrances, and unsparing ridicule of "kid gloved Commissioners and Autocrats." Now John A.'s man can do it, and its all right and down with the "factious Opposition." BRITISH COLUMBIAN.

[We fear our correspondent is wide of the mark with regard to postal affairs at all events, alluded to in his letter. The Inspector not only has given out contracts (temporarily), but has established offices in every settlement in the Province, where it was feasible to do so, and has also opened lines of mail communication in sections of the country which never before heard the postman's knock. What about the material reduction in postage rates throughout the Province, the Dominion, and the world at large?—Ed.]

Innocence Outraged.

Editor Standard:—A nice childish girl, a half-breed, about nine years of age, living with a Spanish woman and her husband on a farm within two miles of Clinton, was violated by a Chinaman on the 8th or 10th of August. The Spanish woman with the child the day after the outrage was committed, made a formal information to the Justice of the Peace at Clinton. Delays in the law occurred, the Chinaman got away, the bloodless wretched Asiatic escaped the punishment the law in its justice would inflict. If such a ruffianly crime was committed in one of the States the young men of the district would have no hesitation in tarring and feathering John and hanging him afterwards, not from the stem of a stately pine but from the blasted limb of some sour apple tree, and probably the distributers of justice here would say, what a terrible lot, I would say it was exactly what men ought to do where the law was not put in execution. It is well known now that not alone did this vermin of the Chinese race violate the child but gave her the most shocking disease. Who is to blame that such an act shall pass unpunished? I am told our Stipendiary Magistrate was informed of the vile outrage having been perpetrated in a day or two after it occurred, and yet not a person has been even sent to arrest the man—the wretch guilty of crime; can I say, worse than murder. A BACKWOODSMAN.

Clinton, Aug. 20th, 1872.

Flags.

Editor Standard,—I notice every Sunday a solitary flag flying in this town; if such flag were hoisted by a man that belongs to the nation it represents, I should not take this notice of it. Even the Consul of that nation does not fly his on Sunday. The party flying that flag may know that neither he nor any other man, excepting Consuls, has any right to fly any national flag, except that of the nation he is living in, (only through courtesy), Sunday or any other day.

Cowichan District Correspondence.

Cowichan, Aug. 19th, 1872.

Editor Standard:—In the last weekly issue of your paper, which comes to hand with the due regularity, I see that there are already two candidates canvassing Saanich District for the seat in the Local House, to be rendered vacant by Mr. Bunster, *should he be returned* to Ottawa for Vancouver District, an event by no means probable. They may as well stay at home, unless Bunster does the correct thing and resign at once, as his chance for the Commons, never very hopeful, are getting worse every day, most of the votes he expected to get being contingent on the retirement of our present member. So far as I have heard, however, the people in this portion of the district have every confidence in Mr. Wallace, who has already devoted considerable time and attention for the benefit of his constituents and the Province, and has gained one session's experience of the "ins and outs" of parliamentary life at the capital. There are doubtless those amongst us who have watched the proceedings at Ottawa, and none can deny that our present member has fulfilled their most sanguine expectations; he has brought forward measures of practical benefit and has proved himself a thorough liberal, having voted for the Ballot in opposition to all the rest of our representatives. For myself I can't see what claim Mr. Bunster has to our support in any way whatever; he certainly has proved himself a sturdy apholder of what he believes to be right, although in some cases he lets his ambition or his zeal, outrun his descretion. I have nothing against Mr. Bunster; none of us have anything against him; we like Bunster, and his beer. We can't spare Bunster from here on that account.

Stop at home Bunster, you know you have nothing to urge in your favor as against Wallace; do the correct thing and withdraw; save yourself and your friends, from what you may be sure is a losing game, a hopeless task, and allow this district the credit of returning by acclamation the member who has already done us such good service.

THE WEATHER

which has been good for so long for haymaking has at last "let up," or rather let down, for there are showers of rain falling now. The hay is mostly housed, fortunately, and it would have all been in long ago, had it not been for the thick cloud of smoke which has hung over us like a pall, and obscured the sun for over a week.

THE HARVEST.

Many are harvesting, and some few have finished. The cereal crops here are about an average; root crops ditto; the hay is light on the uplands, and heavy on the flats and swamp lands.

OUR ANNUAL SHOW,

which will take place on the 16th of October, will tell what this district can do in a dry season; a new feature in which is the Cattle Fair to be held; and also the money prizes to be given for Stock and Produce, in which our neighbors of the other farming districts are invited to compete. The steamer will run so as to accommodate visitors and stock from Victoria, the day being so fixed that the steamer will be up the day before, and down the day after the Show. However, see Prize List which will be out shortly.

So far as

LOCAL POLITICS

are concerned, we are in a quiescent state; there was a "little talk" about having a meeting at the end of last month, but owing probably to the reticence and natural bashfulness of our Members, we have heard nothing from them. I dare say that they may find it easier to argue on points of order in our halls of wisdom, than face their constituents and explain their votes and proceedings, as they have been in many cases widely different from their pledge; and public opinion inclines to the belief that they shirk the responsibility.

BOOM FIRES

have been raging around our devoted heads for some considerable time past, enveloping us with an atmosphere of nearly pure carbon, which with the heat, &c., gives us a foretaste of what some of us will have plenty before long, without having done more damage, however, than burning a few rails, the feed on the high lands, and a school-house or so.

SCHOOL MATTERS

have been rather mixed lately, but are getting in the way of going ahead again, and I believe the Central School theory, or taking the children to school, instead of taking the school to children, is gaining ground. I hope our Board of Education will mature some scheme having that idea for its basis, as it seems to me the only feasible means of educating the children of a sparsely populated country.

THE ROADS.

The road party, under the efficient superintendent, W. C. Duncan, have finished on the north side of the river, and are at work on the south side, and expect to get through in five or six weeks, when they will commence the bridge over the Cowichan to connect the settlement. The roads this year are very much a success, and you might ride or drive all through the settlement without hearing of so much as a growl about the roads, which fact has tended considerably to diminish our anxiety for Municipal Institutions, as granted in the present Bill which no doubt has many faults of its own as well.

I expect I have already trespassed too far on your space, so will close.

Pacific Coast Steamers.

The San Francisco *News Letter* says:

The North Pacific Transportation Company has recently sold to the Oregon Steamship Company, an organization recently formed in Oregon in the interest of the Oregon and California Railroad Company, the steamships and good will of their routes in San Francisco and Portland, and the Portland, Puget Sound and Sitka routes. It is understood the money for this purchase has been advanced by London and Frankfort capitalists. The union of the steamship and railroad interests combines the control of the entire transportation business of the Willamette and Umpqua valley, and of the Oregon and coast business between San Francisco and Portland. This combination of interests confers additional strength on the Oregon and California Railroad, of which Mr. Ben Holladay is President.

By the terms of the transfer it constitutes an additional security for the interest on the bonds issued for the construction of the road. As is well understood in San Francisco, this security is of a reliable character. In its new position with the large and valuable land grants owned by the Railroad Company, the Holladay railroad enterprise may be regarded as financially impregnable. It is understood that Mr. William Norris, the financial agent of the Oregon Railroad in San Francisco, will have charge of the steamship business here. In this city Mr. Norris is known as one of the most judicious and practical men who have ever been connected with the steamship business of the port—an opinion justified by the uniform success which has attended his management.

To the Electors of Vancouver Island District.

GENTLEMEN:—On leaving Ottawa it was my intention to withdraw from politics, but since my return home, I have been daily receiving from every quarter of the country the most urgent solicitations to again become a Candidate to represent your District in the Federal Parliament. After mature consideration I have acceded to the request of my friends, and have now the honor once more to solicit your suffrages at the coming election. In doing so I would state that it is not my intention to canvass the district, or wait personally on the Electors. My having recently spent considerable time in canvassing this extensive district, and business engagements this season renders my doing so impossible. As the electors are well acquainted with my political views on the leading questions of the day, as well as my publicacts in Parliament last session,—if they under those circumstances think fit to return me against their representative, I pledge myself to use my best endeavors to promote the local and general interests of the country. I shall also give the present Government the same hearty support that I did last session, for I am firmly convinced that by retaining in power the able Statesmen, who at present control and direct the affairs of this Dominion, we take the only sure means to advance the immediate and future progress and development of this Province. Everywhere in the Eastern portions of the Dominion, at present is to be witnessed the most marvelous progress, and prosperity, in every department of trade and industry. Agriculture, Commerce and manufactures were never before in such a flourishing condition; all this in a great measure is the result of wise legislation, initiated and carried out by the present Government in whom I recognize the leader of the party of progress. And I hold it to be the duty of your representative to work with this Government in their endeavours to raise this Province to the like degree of vitality and prosperity.

The liability of the outlying settlements to frequent depredations by the Indians, calls for some measure protection from the Government. I shall again urge upon the Ministry the necessity of employing an Armed Vessel for this purpose, believing that prevention is at all times better than cure. In conclusion I can only say that should I again have the honor to represent you in Parliament, whatever ability I may possess, will be devoted to the advancement and wellbeing of the whole country.

I have the honor to remain
Your obedient servant
ROBERT WALLACE.
Victoria, July 22nd, 1872. jy26dw

To the Electors of Victoria District, including Victoria City, Victoria District, Esquimalt and Metchosin.

GENTLEMEN:—In a short time you will be called upon to elect two members to represent you in the House of Commons, and as many electors have expressed to me a desire that I should offer myself as a candidate for this honorable position, I now solicit your suffrages assuring you that if elected, no effort on my part shall be spared to advance your interests at Ottawa or to assist in legislating for the advancement of the whole Dominion.

Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I shall urge the establishing of a Quarantine Hospital at once, the opening of an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the Dredging of Victoria Harbor, I should endeavor if necessary to obtain an increased guarantee for the Dry Dock, and should point out the benefit and importance of completing the Railroad from the Pacific to Lake Superior, (at least) in the shortest possible time.

From present information upon the subject it appears there is little prospect of both Houses being in Session this year at the same time, but should it prove otherwise and should I be elected to the Commons, I should feel in honor bound, (although with great reluctance) to resign my present seat in the Local House and enable another representative to take my place.

I remain respectfully
Your obedient
Robert Beaven.

To the Electors of Vancouver District.

GENTLEMEN:—Having been urgently solicited to become a candidate for the representation of Vancouver District in the House of Commons, and having received a very general assurance of support in the course of canvassing, I now announce myself a candidate.

Averse to long winded addresses and profuse promises before election, I prefer to be judged by the record of my past acts during the last two sessions of the Local Legislature.

Should you honor me with your confidence, I shall use my best endeavors to obtain the Railway Terminus on the Island, and all other questions which may arise, such as Immigration, Postal Service and the administration of Indian Affairs shall meet my most careful consideration. The liberal policy pursued towards British Columbia by the Dominion Government, in my opinion, entitles the present party in power to the hearty support of the representatives from the Pacific.

Should I be honored by your electing me, no personal consideration shall be allowed to interfere with my faithfully discharging my duty, and it will be my highest ambition to strictly guard your interest.

I shall seek an early opportunity of personally addressing you. Meanwhile I respectfully solicit your influence and votes.

I have the honor to be gentlemen

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became wholly inflamed. Despairing of ever being cured I prevailed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and find relief. Respectfully,
JOHN HENTON, of Kentucky, U. S.

C. FRANCIS BARNARD, M.D

SURGEON DENTIST.
DR. BARNARD HAS had for SEVERA months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material accepted to the mounting of whole sets of teeth; he also using "Wholebone Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanite of the last 25 years.
We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other dentist on the Sound, Coast or Island. For details see daily Colonist.

Card of Thanks.

To Dr. J. D. Matthews, Health Officer, and the Board of Health of the City of Victoria.
GENTLEMEN—We the undersigned, the Second Officer, and Second Steward of the Mail Steamer Prince Alfred, who unfortunately were attacked with the baneful disease of small pox, when that vessel was last at this port, take this our only method of publicly conveying our warmest thanks and acknowledgments to Dr. J. D. Matthews, the Health Officer, for his unremitting attention and kindness to us while afflicted, to us still through God's mercy we consider ourselves indebted for our lives. We would also tender our warmest thanks to the Board of Health for the very excellent manner in which we were treated, both in the hospital and while in quarantine.
